Breaking Into Private Equity

Overview:

Led by former private equity professional with applied expertise in LBO modeling methodologies, this seminar begins with a deep dive into the Private Equity deal process and the day-to-day responsibilities of a PE professional. The boot camp then turns to modeling, where participants will learn how to build a real, complex LBO model the way it's done on the job.

Our Detailed Approach:

Day 1: LBO and PE Overview, LBO Modeling

The boot camp begins with a discussion of the private equity deal process. Participants will learn about the PE roles and responsibilities at each phase of a deal, from the review of teasers and first round bids to the due diligence process and LOI phase through deal closing. The second half of the day focuses on LBO concepts, typical deal structures and current industry dynamics.

Day 2: LBO Modeling/PE Deal Process

Trainees begin the LBO modeling process, paying special attention to the most common and challenging issues that emerge when modeling buyouts. We will focus the modeling on various equity and debt tranches, perform scenario and sensitivity analyses and finish with the modeling of advanced functionality and purchase price allocation.

Day 3: LBO Modeling/PE Deal Process

Trainees continue the LBO modeling process. By the end of Day 3 trainees will have built a comprehensive LBO model.

Online: Pre-Seminar Excel training

This boot camp assumes proficiency in Excel. Enrollment includes access to our popular Excel Crash Course for those who need an Excel refresher.

Online: Post-Seminar Online Access

Enrollment includes access to the following online course(s): Financial Statement Modeling, LBO Modeling.

Who is this boot camp for?

This PE Masterclass is targeted specifically for the following audience:

- Investment banking analysts planning to or actively interviewing for PE
- MBAs and undergraduates pursuing private equity
- Current private equity professionals seeking to improve their skill set
- Leveraged finance and credit professionals seeking a better understanding of their PE clients' process
